Viking® Professional 5-Ply Satin Cookware

Viking Professional 5-Ply Satin Cookware uses commercial quality construction to deliver professional performance in the home. With an elegant satin finish, this premium line of cookware is specially handcrafted in the USA.

5-ply construction maximizes heat transfer and reduces energy usage by leveraging the conductivity of an aluminum core sandwiched between stainless steel. This combination of materials enables Viking cookware to deliver superior cooking performance. Each layer of metal is carefully selected for optimum performance and efficiency - stainless steel for durability and aluminum for conductivity.

The magnetic stainless steel exterior makes this cookware suitable for all stovetops, including induction. The core is made up of three layers of aluminum. Two layers of nearly pure 1050 aluminum bonded to a structural layer of 3004 aluminum that prevents warping. The aluminum core disperses heat quickly and evenly throughout the bottom and sides of the vessel. The non-reactive and non-porous interior layer of 18/10 high-grade stainless steel is an ideal cooking surface that is easy to clean and sanitize. Together, these five layers work in unison reducing the energy required to achieve desired cooking temperatures.

The 5-ply construction makes this versatile cookware stove, oven and grill friendly. Viking designed the signature stay-cool handles to be ergonomically friendly, making the cookware more comfortable to hold and maneuver. Backed by a lifetime warranty, Viking cookware will help you produce restaurant quality results at home.

Viking® 5-Ply Hard Anodized Stainless Cookware

Viking 5-Ply Hard Anodized Stainless Cookware uses commercial quality construction to deliver professional performance in the home.

5-Ply construction maximizes heat transfer and reduces energy usage by leveraging the conductivity of an aluminum core sandwiched between a stainless steel interior and a hard anodized aluminum exterior. This combination of materials enables Viking cookware to deliver superior cooking performance. Each layer of metal is carefully selected for optimum performance and efficiency - stainless steel for durability and aluminum for conductivity.

The magnetic stainless steel exterior makes this cookware suitable for all stovetops, including induction. The aluminum core disperses heat quickly and evenly throughout the bottom and sides of the vessel. The non-reactive and non-porous interior layer of 18/10 high-grade stainless steel is an ideal cooking surface that is easy to clean and sanitize.

Viking® 5-Ply Hard Anodized Stainless, 10 Piece Set

Viking® 4-Ply PerformanceTi™ Cookware

Redefining cookware, Viking PerformanceTi™ 4-Ply Cookware delivers a premium cooking experience; advancing 3-ply stainless steel to the next level by offering nonstick performance without a chemical-based coating and providing professional level results associated with clad cookware.

Comprised of four layers, PerformanceTi™ features an induction capable stainless steel exterior, an aluminum core that distributes heat quickly and evenly, and a lightweight, pure titanium layer. The cooking surface layer is a laser-clad hardened layer of Titanium, that has a Vickers Scale rating of 680 (over three times harder than stainless steel) making the interior scratch resistant and 100% safe to use with metal utensils.

This hardened and polished surface makes cooking healthier, and the state-of-the-art titanium-based cookware delivers uniform heat distribution. Experience wall-to-wall even heat distribution that eliminates hot spots and delivers evenly cooked food.

Once properly seasoned, the patented laser-clad surface will deliver nonstick performance without a chemical based nonstick. While traditional nonstick pans wear out over time, PerformanceTi™ will continue to deliver nonstick results year-over-year because there is no coating. When you notice that the pan is not releasing to your expectations, just quickly season it again and you are ready to cook with easy release.

This premium cookware is designed to last a lifetime and is backed by a limited lifetime warranty.

Viking® 3-Ply Hybrid Plus™ Nonstick Cookware

Viking 3-Ply Hybrid Plus Nonstick Fry Pans are the signature choice for all your searing, sautéing, and browning needs in your kitchen.

Viking Hybrid Plus cookware is coated with an advanced multi-layer nonstick coating featuring long lasting, superior release. The raised metal pattern makes your pan perfectly compatible with metal utensils without any scratching.

The 3-ply induction capable stainless steel clad assembly ensures professional quality heat transfer. This three-layer construction makes for more efficient cooking. The Viking signature handle stays cool during use with both a heat break and a finger guide to make a lifting and control easier.

Hybrid Plus pans are dishwasher safe but hand washing is recommended to ensure the cookware lasts as long as possible.

Viking® 3-Ply Copper Clad Cookware

Viking 3-Ply Copper Clad Cookware combines a layer of aluminum sandwiched between a beautifully hand-hammered copper exterior and a heavy-gauge stainless steel interior for superior performance. The aluminum core provides exceptional heat transfer throughout the pans, while the copper exterior heats evenly for precise temperature control.

Featuring a flared seamless rim, the vented glass lids allow you to easily see the progress of your meal while reducing the chance of boil-overs. The Viking signature ergonomic stay-cool handles have a finger guide and built-in heat break for easy lifting and control, while the internal volume measurements make measuring quick and precise.

Viking® Hard Anodized Nonstick Cookware

Constructed with heavy gauge anodized aluminum for durability and even heat distribution throughout the sides and bottom of the pan, Viking Hard Anodized Cookware features a stainless steel base making it exceptionally stable and compatible with all cooktops including induction (except for 1 Qt. Sauce Pan and Double Burner Griddle).

Featuring triple-layer nonstick, each piece is coated with three layers of durable nonstick coating to ensure maximum release and longevity, even when using metal utensils.

The saucepans and larger vessels feature interior measurement markings for accurate addition and reduction of ingredients. Tempered glass lids allow you to “look and cook” as you watch the progress of your meal. Designed with ergonomics in mind, Viking signature handles are hand crafted from cast stainless steel and riveted to the pan for a lifetime of durability.

Lid handles and long handles feature heat breaks to help them stay cool on the cooktop during use. Long handles feature a finger stop that guides your hand to the perfect grip for comfort, balance and control.

Viking Hard Anodized can be used on all cooktops, including induction, in the oven, or on the grill up to 500°F, making it perfect for finishing dishes the same way a professional chef does. The glass lids are oven safe to 350°F in a preheated oven. Viking Hard Anodized Nonstick Cookware is dishwasher safe and backed by a limited lifetime warranty.

Viking® Cast Iron Cookware

Cast iron is a natural addition to the Viking kitchen, maximizing the performance of Viking stoves by providing the natural heat retention required for roasting, braising, searing and more.

Designed for efficiency, most cooking can be done on low to medium heat. Viking cast iron will distribute and retain the heat evenly, allowing the pan to reach and maintain ideal cooking temperatures with lower energy requirements. Conversely, cast iron holds cold temperatures equally well for food storage and serving or preparing cold recipes.

Viking cast iron features a non-reactive glossy enamel interior that is durable enough to handle metal utensils but will not react with foods, maintaining the flavor during cooking. While enamel is not a non-stick surface, the enamel coating does feature stick-resistant properties aiding in cleanup.

The exterior of each piece is coated with matte enamel that helps resist chips and cracks while keeping maintenance to a minimum.

The 5 Qt. capacity Dutch oven and other covered pieces employ lid spikes on the interior of the lid to “self-baste” by distributing condensation back into the pot during cooking. The end result means less evaporation, keeping meets tender while helping to retain vegetable nutrients that may otherwise evaporate.

Viking Cast Iron is safe for use on the stove, the grill, and in the oven, while being elegant enough to take directly to the table for serving.

Viking® Cast Iron Cookware, Open Stock

Viking® Blue Carbon Steel Cookware

Viking Blue Carbon Steel cookware is the perfect tool for searing, sautéing, simmering, braising, baking, roasting, and frying. The heavy-gauge blue carbon steel construction heats quickly, distributes heat evenly and retains heat for high-heat searing and browning. The cooking surface is seasoned with oil for a natural, easy-release finish that improves with use. Use on gas, electric, induction stovetops, outdoor grills or open fire. Oven safe to 500°F (260°C).

- Heavy Gauge Blue Carbon Steel Construction for Fast Heating, Superior Heat Transfer & Retention
- Double-Riveted Viking Signature Cast Iron Handles
- Naturally Stain & Scratch Resistant
- Limited Lifetime Warranty

Viking® Cast Aluminum Nonstick Roaster

This versatile roaster has an induction capable nonstick coated lid that can turn your roaster into a dutch oven, be used separately as casserole or on the stovetop as a grill pan. The bonus tempered glass aroma lid allows you to add liquids during cooking without removing the lid. Both the lid and roaster are induction capable and work on all types of cooking surfaces. The advanced nonstick interiors are designed for superior release and healthy, worry-free cooking.

- Cast Aluminum Construction
- Both Lid and Roaster Can Be Used on any Cooking Surface, Including Induction
- Lid Can Be Used Separately as a Casserole or on the Stovetop as a Grill Pan
- Aroma Lid Allows You to Add Liquids to the Roaster Without Removing the Lid, Just Pour Liquids into the Handle
- Tempered Glass Aroma Lid is Vented to Help Prevent Boil Overs
- Titanium Infused Nonstick Coating for Durable, Safe, Superior Release
- Oven Safe to 500°F. Aroma Lid is Oven Safe to 425°F in a Preheated Oven
- Limed Lifetime Warranty

Viking® Nonstick Aluminized Steel Baking Sheets

These heavy gauge baking sheets are made of commercial-grade aluminized steel to heat quickly and evenly while the double-layer nonstick coating ensures easy release and quick cleanup. The silicone based, double-layer nonstick is designed for superior, safe release.

This unique construction provides the strength and durability of baking with steel with the added conductivity of aluminum for exceptional heat distribution. Each sheet is reinforced with a solid steel frame around the entire outer edge of the pan. The steel frame gives each baking sheet stability, making it easy to take in and out of the oven while preventing warping. The high walls wrap around the steel frame and are designed to help keep juices and liquids in place when roasting. The heavy gauge steel construction also improves and maximizes the heat distribution compared to lower weight baking sheets.

The baking sheets are oven safe to 475°F (246°C) and are perfect for baking cookies and pastries, pizzas, roasting proteins and vegetables, frying eggs or fries, and so much more.

40042-6413N

Viking® Professional German Steel Cutlery

Designed and manufactured in Germany, Viking Professional Cutlery delivers uncompromising performance through the perfect balance between blade and handle geometry. These fully forged knives are constructed from a single piece of steel, creating a seamless bolster and integrated tang for strength and durability. The high-quality stainless chrome-molybdenum-vanadium steel is ice hardened with state of the art technology to increase edge retention, insuring sharpness while resisting corrosion. Viking Professional Cutlery features X50CrMoV15 German Stainless Steel with a HRC of 55°-56° and is designed for both home and professional use.

Knowing the demands of a professional Chef, the ergonomically designed handles were designed with a focus on comfort and ease of use featuring exceptional balance between the blade and handle. With little to no weight on the upward lift, this cutlery is designed to be an extension of the hand and eliminate fatigue.

The blade features a 15° cutting edge that is hardened under inert gas to insure strength and long life. Viking cutlery is completely hygienic with no gaps between the tang and POM handle. The bolster and integrated tang deliver stability and balance while protecting the users hand from the heel of the blade.

Viking® Mixing Bowl Sets

Viking stainless steel mixing bowl sets are ideal for your mise-en-place food preparation. With silicone bases and airtight lids, the bowls are perfect for prep, mixing, serving, and much more. Made from durable stainless steel, the bowl sets features convenient volume markings for quick and easy measurements. A wide rim at the top of the bowl improves grip during mixing, and the silicone base provides stability and countertop protection. Each bowl comes with a tight-fitting lid so ingredients can be prepped in advance and stay fresh until ready to use. The bowls can be nested for compact storage when not in use, and are refrigerator and freezer safe for short-term food storage.

Viking® Pressure Cooker

The Viking Pressure Cooker uses a simple non-slip lock knob to easily and securely clamp the lid down on the vessel. Set the lid on in any direction you wish, then just turn the knob to create a pressure safe seal and you are ready to cook.

- Open & Close the Lid with the Turn of a Knob
- Can Be Used on any Cooking Surface, Including Induction
- 3-Ply Base for Even Heat Distribution
- Energy Saving – Reduces Cooking Time by Half or More
- Pressure Release Dial Allows You to Easily Adjust the Pressure
- Pressure Settings Include High Pressure (8-15 PSI), Low Pressure (1-8 PSI) & Release
- Durable Stainless Steel Construction
- Pressure Indicator Identifies when the Cooker has Reached Full Pressure
- Stay Cool Handles

Viking® Professional Pot Rack

The Viking Professional Pot Rack is hand-crafted in the USA from high-carbon steel and polished to a beautiful satin finish. The hanging grid and hooks are fabricated from 304 stainless steel. The timeless design and durable construction will make this rack the heart of your kitchen for years to come.

Manufactured in the USA from Globally Sourced Parts

About Viking® Culinary

Viking products began with a passion for cooking.

Like many great innovations, Viking appliances were created from necessity. Frustration with the lack of commercial function and features in home ovens and stoves was the inspiration for the next generation of performance driven appliances. The Viking kitchen was born.

Viking Culinary continues the tradition that started over 25 years ago by combining the elegance and quality of cookware and kitchenware with the performance expected from the modern home chef.
