

CONNECT, CONTROL, AND OPTIMIZE YOUR EQUIPMENT WITH ONE POWERFUL IOT PLATFORM.

Firex broilers are designed to deliver high-heat searing and perfectly finished dishes. Open Kitchen helps operators maintain that performance by tracking temperature accuracy, pushing updated broiling parameters, and identifying maintenance needs before they affect product quality.

FEATURES

- Continuously monitor surface broiler temperatures to avoid under- or over-cooking and ensure consistency.
- Push new broil-time parameters or preheat profiles to adapt to menu changes or new ingredients.
- Get alerts for component wear (e.g., radiation rod failure) before they compromise performance.

Remember to Include the Open Kitchen Bundle with Your Order!*

Purchase 1 year of Open Kitchen with your equipment by including the Open Kitchen bundle at checkout.
