

Powerhouse Dynamics proudly presents **Menu Builder by Open Kitchen**, a FREE, cutting-edge, cloud-based solution designed for seamless menu and recipe management across multi-unit operators and commercial kitchens. This intuitive platform simplifies operations, saves labor costs, and ensures consistency across all locations.

Key Benefits

- **Simplified Management:** Instantly update menus and recipes across all locations with real-time collaboration and version control.
- **Seamless Integration:** Compatible with new and legacy equipment to ensure consistent and uniform operations.
- **Scalable & Easy:** Designed for growth, with no extra hardware or software required—free with your Open Kitchen license.
- **Cost-Effective:** Save on labor costs, reduce downtime, and eliminate the need for on-site updates.

Ideal Users

- **Corporate culinary** and R&D teams in multi-unit restaurants
- **Sales representatives** and Middleby customers involved in menu development
- **Consultants and food partners** supporting innovation and solutions
