KI
KITCHEN
INNOVATIONS
2015 AWARD
NATIONAL RESTAURANT ASSOCIATION
RESTAURANT, HOTEL-MOTEL SHOW

Very simple to operate, no heavy lifting and the most hygienic 20 qt. mixer on the market. The KODIAK, recipient of the Kitchen Innovations Award, was designed with input from professional users to create the ideal mixer for meeting daily demands and challenges.

RUST & WATER RESISTANT

IP44, rust & water resistant, easy to clean surfaces with no external screws or hardware

INNOVATIVE

Intuitive, efficient operation and innovative tools

ERGONOMIC

User-focused design for better comfort and productivity

4-YEAR

parts & labor warranty

V20KT

V20KF

ERGONOMIC OPERATION

Easily transport batches to work stations with no need for heavy lifting. The bowl trolley perfectly aligns the bowl with the mixer arms for proper lowering, removal and reinstallation – no lifting needed.

POWERFUL TOOLS

Uniquely designed tools quickly produce high quality results. Stronger, better engineered whips last longer and whip efficiently. Flat, twisted beater bars give complete mixes with better incorporation. Precision-bent dough hooks knead thoroughly downward into the bowl without dough climbing the hook.
