SG213 Premium Advanced Manual Slicer

Precision Cutting Powerful Performance Easy Cleaning

The heavy-duty S2-Series of premium slicers from Globe deliver powerful performance in a compact, intuitive design with improved cleanability and Globe-trusted durability.

SG213

Removable knife makes cleanup easier while providing more operator protection

REVIT

AutoQuotes

Model: SG213 (*Advanced Manual*)

Standard Features:

Cutting System

- 13" carbon steel knife with hardened edge provides quality slices and higher yields
- Top mounted knife sharpening system utilizes long-lasting synthetic diamond wheels for quick and easy sharpening

Interlocks

- No-Volt Release: prevents inadvertent reactivation of knife in the event of power interruption
- Carriage Interlock: prevents the knife from running when the carriage is not secured
- Home To Start: ensures the carriage is in the home position in order for the unit to start
- Close To Stop: powers the unit down after the slicer gauge plate is closed
- Knife Time Out: automatically shuts off the motor if the carriage remains idle for 30 seconds (**time can be adjusted to as little as 5 seconds or turned off completely**)

Product Handling

- Large-capacity carriage accommodates prosciutto, mortadella, and bacon
- Patented meat grip design for superior product hold
- 50° gravity-feed carriage design guides product toward the blade for effortless slicing

Cleanability

- Patented, anodized aluminum design and construction for quick and easy cleaning
- Patented, removable meat grip design allows for easy handling and is dishwasher safe
- Removable upper carriage with lock-and-slide design allows for easy reassembly and unobstructed cleaning
- Removable knife sharpener for quick and easy cleaning
- Integrated lift lever allows easy access for fast, efficient cleaning

Structure & Controls

- Reverse-action cam driven indexing system enables accurate and precise slice thickness adjustment up to 5/8" (0.625"), with optimum control on the thinnest cuts
- Control panel features tactile Start and Stop buttons as well as power and run indicator lights

Interface & Diagnostics

- Patented, graphic user interface with Clear-Text LCD display provides built-in site diagnostics and system counters
- Patent-pending, 4-hour cleaning notification keeps operators on schedule for regular cleaning and sanitation
- Multi-language interface (English, French, Spanish)

Warranty

- *Two year parts and labor*

SG213 Premium Advanced Manual Slicer Factory Installed Options

Removable Knife Package (KNIFE-RMV)

- Knife is secured in tool for operator protection
- Tool easily removes knife for more access under the knife and faster, easier cleanup
- Knife and removal tool are dishwasher safe

Stainless Steel Blade (SSK)

- Ideal for highly acidic applications commonly found in preparation of onions and citrus fruits
- Resists enzyme/protein exposure in raw red meat slicing to help prevent corrosion and extend blade life
- Offers better corrosion resistance caused by extreme moisture applications (meat rooms)

S2-Series Advanced Model Features

- Home To Start ensures the carriage is in the home position in order for the unit to start
- Patented 4-Hour Cleaning notification keeps operators on schedule for regular cleaning and sanitation
- Carriage Interlock prevents knife from running when the carriage is not secured
- Knife Time Out automatically shuts off the motor if the carriage remains idle for 30 seconds (**timer can be adjusted to as little as 5 seconds or turned off**)

FACTORY INSTALLED OPTIONS:

- ☐ KNIFE-RMV - Removable knife includes removal tool
- ☐ SSK - Stainless steel knife in lieu of Carbon Steel

OPTIONAL ACCESSORIES:

- ☐ S2-FF125 - Food Fence Low, 1.25"
- ☐ S2-FF300 - Food Fence High, 3.00"
- ☐ S2-FPA - Food Prep Attachment
- ☐ SC-LARGE - Sanitation Cover
- ☐ S-XDSLM - Extended 3-Year Warranty

Constructed of durable anodized aluminum for quick, easy cleaning and long service life, the SG213 features a 13" carbon steel knife with a hardened edge for consistent slice quality and higher yields. A top-mounted knife sharpening system uses long-lasting synthetic diamond wheels for quick, easy sharpening, and the sharpener is removable for simplified cleaning. Precise slicing is supported by a reverse-action, cam-driven indexing system providing accurate thickness adjustment up to 5/8" (0.625") with excellent control on the thinnest cuts. Product handling is optimized with a large-capacity 50° gravity-feed carriage designed to accommodate items such as prosciutto, mortadella, and bacon, along with a patented meat grip for superior product hold. Supported by multiple interlocks including No-Volt Release, Carriage Interlock, Home to Start, Close to Stop, and a Knife Time Out feature that automatically shuts off the motor after 30 seconds of inactivity (adjustable down to 5 seconds or can be disabled). Cleanability is enhanced with a removable, dishwasher-safe meat grip, a removable upper carriage with lock-and-slide design for unobstructed access, an integrated lift lever for easier access, and the removable sharpener. The control panel includes tactile Start/Stop buttons plus power and run indicator lights, while the patented graphic user interface with Clear-Text LCD display provides built-in site diagnostics, system counters, and a multi-language interface (English, French, Spanish). A patent-pending 4-hour cleaning notification helps keep operators on schedule for regular sanitation. ETL listed. Backed by a two-year parts and labor warranty.
