ITEM NUMBER:

OPTIMUM By Bartender

UKThe Optimum Plain Bridge Top provides a continuous working surface between bar modules, helping to improve workflow and efficiency in busy commercial environments. Manufactured from high-quality 304 stainless steel, it offers excellent durability, corrosion resistance and hygiene. The solid surface is ideal for drink preparation, service and general bar operations, creating a seamless and practical workspace. Available in a variety of widths to suit different layouts, the bridge top integrates easily with existing bar equipment. Its smooth finish is easy to clean, making it a durable and professional addition to bars, pubs, restaurants and hotels.

PRODUCT FEATURES

- Standardised 600mm depth create a seamless, ergonomic workspace that enhances operator comfort, improves efficiency and delivers a consistent, professional bar appearance.
- Solid work surface provides a practical area for drink preparation and service tasks.
- Available in a range of widths to suit different bar layouts and installation requirements.
- Smooth, professional finish complements modern bars, pubs, restaurants and hotels.
- Two Year Parts and Labour Warranty
