- One Year Parts and Labour Warranty

The Optimum Plain Bridge Top provides a continuous working surface between bar modules, helping to improve workflow and efficiency in busy commercial environments. Manufactured from high-quality 304 stainless steel, it offers excellent durability, corrosion resistance and hygiene. The solid surface is ideal for drink preparation, service and general bar operations, creating a seamless and practical workspace. Available in a variety of widths to suit different layouts, the bridge top integrates easily with existing bar equipment. Its smooth finish is easy to clean, making it a durable and professional addition to bars, pubs, restaurants and hotels.
