

Fast and efficient, the 904X Waste Disposer is able to dispose of 500kg of food waste per hour and handles up to 1000 covers per sitting, making it ideal for larger hotels, hospitals, universities, prisons and food preparation companies.

The 904X is able to switch itself off to save energy and has an automatic rinse function, to prevent nasty odours.

It is suitable for medium waste - plate waste, vegetables and peelings, meat and fish scraps, and small bones. The free-standing unit can be welded into tabling with a E30/095 hopper rim, for quick loading.

PRODUCT FEATURES

- Fast and efficient disposal of up to 500kg of food waste per hour.
- Handles up to 1000 covers per sitting - ideal for large kitchens.
- For medium waste (plate waste, vegetables and peelings, meat and fish scraps).
- Free-standing design, but can be welded into tabling with E30/095 hopper rim.
- Manually reversible motor to extend operational life.
- Low-load cut-outs ensure energy and water efficiency.
- Suitable for large kitchens with single-phase power supply.
