Opus 800

UKDesigned for quality cooking at speed, the Opus 800 Electric Chrome Griddle heats up quicker than standard griddles with less energy loss as well as reduced energy radiation, keeping the kitchen cooler for staff and reducing pressure on the ventilation system. Not only is heat is transfered more efficiently than with a standard griddle, but the precise thermostatic control up to 300°C means that you're always in control, whether your cooking meat, eggs or vegetables. Perfect for any busy commercial kitchen, the chrome griddle comes with two separately controlled heat zones, which allow for the versatility of operating either zone independently when cooking two separate meals simultaneously.
