

# ICE MAKER WATER TREATMENT

## Crystal Clear One

(Model CC1)

Up to 600 lbs./Day Cubers

### BENEFITS

- ▶ Reduce ice maker service costs.
- ▶ No cartridge activation.
- ▶ Filter can be installed in any position.
- ▶ 5 micron filtration
- ▶ Activated carbon
- ▶ Extends life of the ice maker
- ▶ Protects ice bin and other metal parts in the ice maker.
- ▶ Boosts ice maker function at full capacity.

70% of all ice maker problems are caused by poor water quality and hard water deposits. Model CC1 will minimize scale deliming and unreliable ice maker performance.

The CC1 incorporates carbon and multi-stage filtration to ensure the ice is free from particulates and bad taste.

## Low Volume Water Filter

An affordable water filter for ice makers up to 600 lbs./day

The CC1 improves ice maker efficiency, ice production and reduces ice maker maintenance.

The filter includes:

1. Polyphosphate - ideal for controlling low scale forming water.
2. Activated Carbon - controls chlorine.
3. Filtration - controls suspended particles.

### Specifications:

Model number	CC1
Ice maker production lbs./day	up to 600 lbs.
Maximum operating pressure	125 psi
Maximum operating temperature	100 <sup>o</sup>
Flow rate	2.25 gpm
Fittings	3/8 flare or Easy Connect
Pressure gauge	filter life gauge
Shut off valve	3/8"
Mounting bracket	polished aluminum
Filter replacement	CC1R
Dimensions	27" W X 4" H
Shipping weight	4 lbs.
Water hardness (gpg)	up to 6
